COBRA in brief

COBRA or Confrontation of CBRN-Terrorism Threats project aims to increase preparedness and response capabilities of South-East Europe LEAs against terrorist attacks and CBRN threats.

This is an initiative addressing wide range of complex challenges and asymmetric threats with focus on Law Enforcement Agencies. Training, equipment and security for citizens and infrastructures (both critical and public spaces) is the main focus of the project.

Project Objectives

The COBRA project aims to:

-  Raise awareness and increase preparedness and response capabilities of South-East Europe LEAs against terrorist attacks to public spaces and CBRN threats.
-  Provide specialized training to personnel involved in detecting and mitigating the impact of attacks to open public spaces and managing CBRN risks of critical infrastructures.
-  Invest to the procurement and upgrade of field technical equipment and components for incident response as well as for special training purposes.
-  Share good practices and lessons learnt to efficiently align relevant SOPs in case of cross jurisdictional incidents.

Work Packages

WP1 Management and Coordination of the Action

Brief description: WP1 covers the management and coordination of the project. This work package is about the management, coordination and quality assurance activities of the project and will run throughout its duration. Its main objective is to ensure the successful completion of the project goals.
