## Cobra in brief

**COBRA** or **Confrontation of CBRN-Terrorism Threats** project aims to increase preparedness and response capabilities of **South-East Europe** Law Enforcement Agencies (LEA) against terrorist attacks and CBRN treats. **Training, equipment and security** for citizens and infrastructures is the main focus of the project.

## Achievements

The official start of the COBRA project took place on **1st October 2019**.

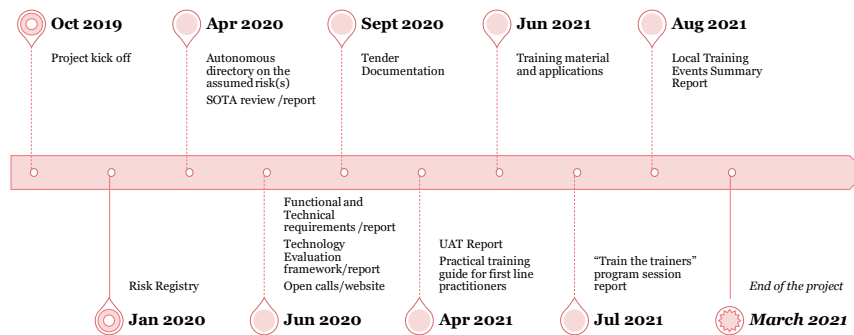

In the period **November 2019 - December 2019** were drafted and finalized the most important documents needed for the efficient management of the project coordination and information flow between the partner organizations: The **Project Management Handbook**, The **Risk Management and Quality Assurance** guidance document, The **Communications Plan and Dissemination Roadmap**.

October 2019 – March 2020

## Project Milestones

In **January 2020** was drafted and circulated the **Risk Registry document**. It contains investigations and analysis of several past incidents related to **CBRN attacks** reported by the partner countries. Based on the collected information a web-based platform will be further developed for the needs of the participating teams. **Critical Infrastructures** and exploitation of their vulnerabilities to terrorist attacks, including the means of their realization, will also be added to the corresponding dimension of the registry.

## Next meeting

The next regular meeting of the project consortium will be held in the period **27-28 May 2020** with participation of the project representatives in the annual **International Defense Equipment and Services Exhibition „HEMUS 2020“**, 27.05.2020 - 30.05.2020, Plovdiv, Bulgaria. (<https://www.hemusbg.org/en>).
